

Représentation des fractions décimales - Ecriture décimale d'une fraction.

L'aire du rectangle ci-dessous, prise comme unité, a été divisée en 10, en 100 puis en 1000 parties égales:

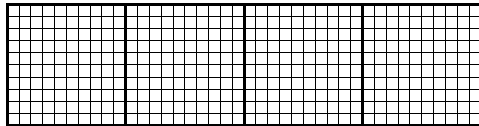

dixième de l'unité

Indiquer l'aire des figures suivantes sous la forme d'une fraction puis d'un nombre décimal:

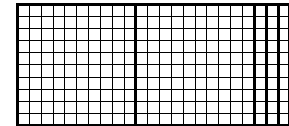

A

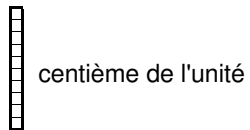

A =

B

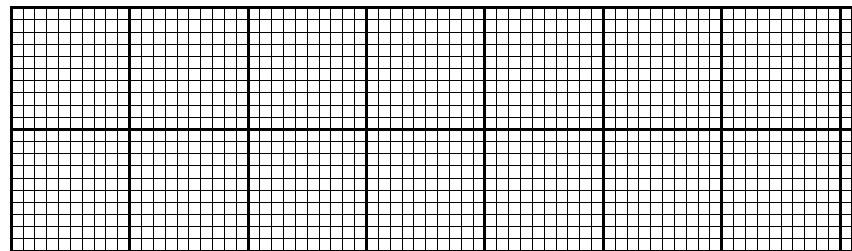

B =

centième de l'unité

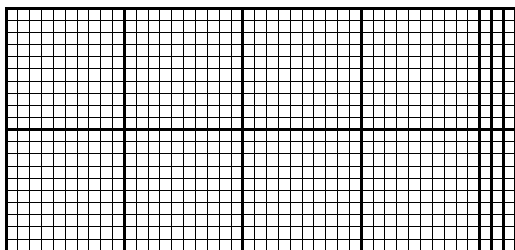

C

C =

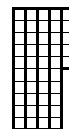

□ millième de l'unité

D

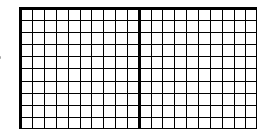

D =

E

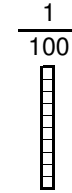

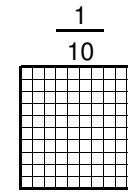

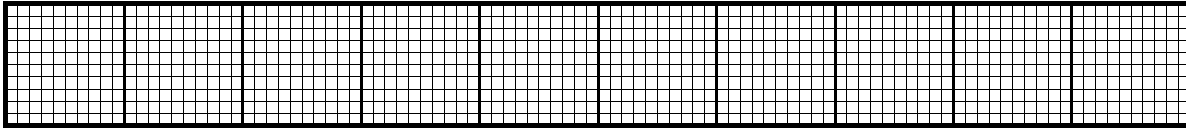

E =

F

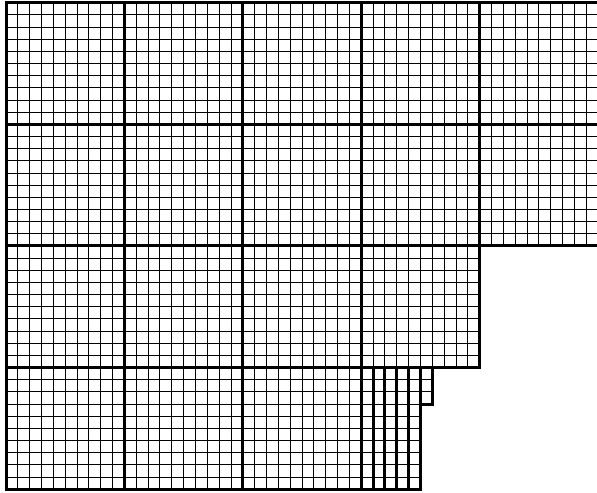

F =

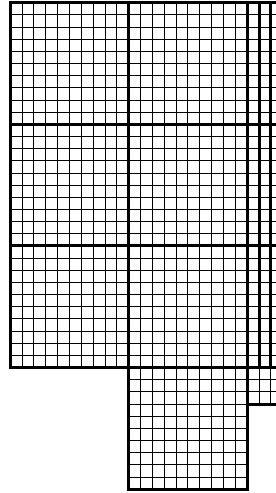

L'aire du rectangle ci-dessous est prise comme unité: 1

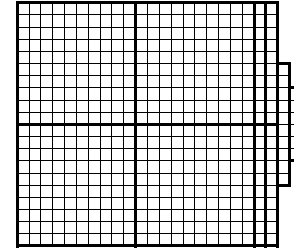

Indiquer l'aire des figures suivantes à l'aide d'une fraction puis d'un nombre décimal :

A =

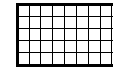

B =

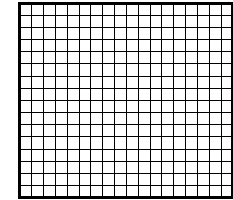

C =

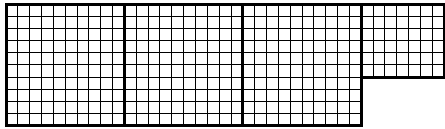

D =

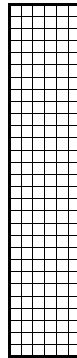

E =

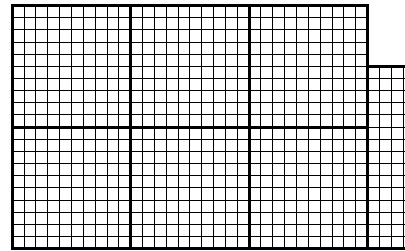

K =

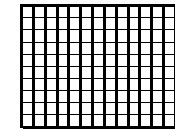

F =

H =

I =

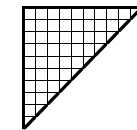

J =

G =

L =

M =

1
